

National Jewish Health and LabCorp to Collaborate on Companion Diagnostics Opportunities

December 10, 2008

DENVER & BURLINGTON, N.C., Dec 10, 2008 (BUSINESS WIRE) -- National Jewish Health and Laboratory Corporation of America(R) Holdings (LabCorp(R)) (NYSE: LH) (LabCorp) have reached an agreement to collaborate in the development and commercialization of molecular diagnostic tests in support of personalized medicine. The collaboration combines National Jewish Health's strengths in molecular diagnostics and respiratory, immune, and related diseases with LabCorp's national leadership in personalized medicine and esoteric testing.

"National Jewish's Advanced Diagnostics Laboratory is the premiere esoteric lab in respiratory, immune, and related diseases," said Gary Smith, Ph.D., Executive Director of the Advanced Diagnostics Laboratory at National Jewish Health. "This important collaboration with LabCorp will allow us to provide specialized companion diagnostic tools to a much broader audience."

"This agreement further emphasizes LabCorp's focus on personalized medicine and companion diagnostics," said Dr. Andrew J. Conrad, LabCorp's Chief Scientist and Global Head of Clinical Trials. "LabCorp is pleased to collaborate with leading institutes, such as National Jewish Health, in order to offer the most advanced testing capabilities."

The parties have established a framework for the discovery, development, and commercialization of diagnostic tests. Financial terms of the agreement were not disclosed.

National Jewish Health is known worldwide for treatment of patients with respiratory, immune and related disorders, and for groundbreaking medical research. For 11 consecutive years, U.S. News & World Report has ranked National Jewish the No. 1 respiratory hospital in the nation. National Jewish Health's Advanced Diagnostics Laboratory is the nation's leading immunology reference lab, featuring a comprehensive menu of respiratory, molecular, and companion diagnostic tests.
