LabCorp Partners with Cheeriodicals through Community Service Campaign to Florida Hospital Memorial Medical Center and Halifax Health Medical Center

Daytona, Fla., March 5, 2018 – As part of a community service campaign, an enthusiastic group of LabCorp employees teamed up with [Cheeriodicals](#) to assemble and deliver 128 big green boxes to children patients at Florida Hospital Memorial Medical Center and Halifax Health Medical Center during a "Cheeriodicals Day" event held last week. Cheeriodicals are "big green boxes of cheer" made up of age-appropriate magazines and activity books, room decorations, puzzles, stickers and games for the children to enjoy.

Nearly 150 employees from LabCorp volunteered their time to assemble the one-of-a-kind children's gift boxes.

"We're thrilled to deliver smiles to these hospitals today," said Gary Parisher, president of Cheeriodicals. "This is the second time we have partnered with this team from LabCorp to make a measurable impact on hospitalized children and their families. Their team exemplifies what giving back is all about."

After a special delivery to the hospital, free of charge by Two Men and a Truck Daytona, the LabCorp team and Cheeriodicals began distributing the big green boxes of cheer to patients and families at the hospital, helping to make a lasting impact on everyone involved.

"Halifax Health is thankful for the generosity shown today to our patients and their families by LabCorp and Cheeriodicals. These amazing big green gift boxes will help to make the stays of the children we care for a more pleasant experience," said Amy Christie, pediatrics nurse manager for Halifax Health.

"Florida Hospital Memorial Medical Center is pleased to have LabCorp donate the big green boxes of cheer to our pediatric patients," said Becky Vernon, Regional Director of Women & Children's Services. "We sincerely appreciate LabCorp sponsoring this community effort and helping to provide the children in our hospital with an enjoyable experience."

“LabCorp is extremely pleased to be a part of this meaningful community service campaign with Cheeriodicals, where our employees donated their time to bring joy to many children and their families,” said Gary Huff, chief executive officer of LabCorp Diagnostics. “LabCorp works every day with healthcare providers such as Florida Hospital Memorial Medical Center and Halifax Health – Children’s Medical Center and their patients to improve health and improve lives. Today’s event brought smiles to many faces and gave our dedicated employees a chance to support young patients and their families in a very different, and incredibly fulfilling, way.”

Cheeriodicals Day is catching on across the country. Cheeriodicals has worked with children's hospitals on Cheeriodicals Days in dozens of markets nationwide including: Phoenix, Birmingham, Cincinnati, Chicago, Las Vegas, Minneapolis, Fort Lauderdale, Columbus, New York and Omaha. The company has plans to continue working with corporate sponsors to bring cheer to children's hospitals throughout the country.

About LabCorp
