LABORATORY CORPORATION OF AMERICA-REGISTERED  
TRADEMARK- ANNOUNCES DEFINITIVE AGREEMENT TO  
ACQUIRE DIANON SYSTEMS, INC.

Burlington, NC and Stratford, CT, November 11, 2002 -  
Laboratory Corporation of America-Registered Trademark-Holdings  
(LabCorp-Registered Trademark-) (NYSE: LH) and DIANON  
Systems, Inc. (NASDAQ: DIAN), a leading provider of cancer and  
genomic diagnostic services, today announced that they have entered  
into a definitive agreement under which LabCorp will acquire all of  
the outstanding shares of DIANON for \$47.50 per share in cash. The  
transaction, which is subject to DIANON shareholder and regulatory  
approval, is expected to close in the first quarter of 2003.

The acquisition is anticipated to be accretive to LabCorp's 2003  
diluted earnings per share by approximately \$0.05. LabCorp expects  
to realize an estimated \$35 million in annual cost savings synergies  
by year-end 2005.

Under the terms of the agreement, which was unanimously approved  
by the boards of both companies, LabCorp will acquire DIANON  
through a merger of a newly-formed wholly-owned subsidiary of  
LabCorp with DIANON. In the merger, holders of DIANON  
common stock will receive \$47.50 per share, or approximately \$598  
million. DIANON currently has approximately 12.6 million fully  
diluted shares outstanding. The transaction will be funded by a  
combination of cash on hand, borrowings under LabCorp's existing  
credit facility and a new bridge loan facility.

DIANON is a leading provider of anatomic pathology and oncology  
testing services in the U.S., with a focus on the outpatient market.  
Approximately 1,100 employees process more than 8,000 samples  
per day in one main testing facility and four regional labs. DIANON  
had 2001 revenues of approximately \$126 million, and revenues of  
approximately \$141 million for the nine-month period ended  
September 30, 2002.

"We are truly excited to have reached an agreement with this  
premier oncology testing laboratory," said Thomas P. Mac Mahon,  
LabCorp's chairman and chief executive officer. "The proposed  
acquisition of DIANON is a key part of LabCorp's strategy to be a  
leading cancer diagnostic laboratory in North America offering the  
most innovative technologies available. This strategy is clearly  
supported by DIANON's talented managers and employees, who  
have substantial testing expertise, sales capabilities and skill in the  
development of novel reporting formats."

"More and better cancer diagnostics will continue to have a profound  
impact on patient care in the coming years," continued Mr. Mac  
Mahon. "Combining LabCorp and DIANON will improve access to  
today's valuable cancer testing methods. The combination will also  
create a company well positioned to offer innovative new genomic  
tests for cancer through its partnerships with technology leaders such  
as Myriad Genetics, Inc., EXACT Sciences Corporation, Celera  
Diagnostics and Correlogics Systems, Inc."

"We are pleased to announce a transaction with a company that has  
been a pioneer in bringing leading-edge technologies to the market,"  
said Kevin C. Johnson, DIANON's chairman, president and chief  
executive officer. "LabCorp's focus on cancer diagnostics and its  
vast capabilities in specialized testing will help ensure that our  
customers continue to receive the very best in testing services.  
Opportunities for employees will be available as part of a stronger,  
more competitive company."

LabCorp will host a conference call with investors to discuss the  
transaction on November 11, 2002 at 11:00 A.M. ET. A live webcast  
of the call will be available online at [www.labcorp.com](http://www.labcorp.com) or at  
[www.streetevents.com](http://www.streetevents.com) beginning at 11:00 A.M. ET, with an  
online rebroadcast continuing through December 11, 2002. The live  
call at 11:00 A.M. is also available in a listen-only mode by dialing  
212-896-6075. A telephone replay of the call will be available  
through November 18, 2002, and can be heard by dialing 800-633-  
8284 (402-977-9140 for international callers). The access code for  
the replay is 210-33-171.

Analysts and investors are also directed to the home page of  
LabCorp's website, [www.labcorp.com](http://www.labcorp.com), where additional  
information on the DIANON transaction will be posted. This

supplemental information will be filed as an 8-K with the SEC as soon as the SEC reopens following the Veteran's Day federal holiday.

#### About DIANON

DIANON provides a full line of anatomic and molecular pathology testing services and the CarePath-Trademark- Health Information Service, which provides personalized, diagnosis-specific information to physicians and their patients at critical moments in the healthcare process. DIANON has more than 650 managed care contracts and over 14,500 physician customers use DIANON's services, including 5,000 of the country's 7,500 urologists. The company has labs in Connecticut, New York, Florida, Texas and Oklahoma, along with a centralized specimen processing center in Ohio. Further information about DIANON can be obtained from the Company's web sites at [www.DIANON.com](http://www.DIANON.com) or [www.carepathonline.com](http://www.carepathonline.com).

#### About LabCorp

The first national clinical laboratory to fully embrace genomic testing, Laboratory Corporation of America-Registered Trademark-Holdings (LabCorp-Registered Trademark-) has been a pioneer in commercializing new diagnostic technologies. As a national laboratory with annual revenues of \$2.2 billion in 2001 and over 25,000 employees, the Company offers more than 4,000 clinical tests ranging from routine analyses to sophisticated molecular diagnostics. Serving over 200,000 clients throughout North America, LabCorp combines its expertise in innovative clinical testing technology with its Centers of Excellence. The Center for Molecular Biology and Pathology, in Research Triangle Park, North Carolina, offers state-of-the-art molecular gene-based testing in infectious disease, oncology and genetics. Its National Genetics Institute in Los Angeles is an industry leader in developing novel, highly sensitive polymerase chain reaction (PCR) methods for testing hepatitis C and other blood borne infectious agents. LabCorp's Minneapolis-based ViroMed offers molecular microbial testing using real time PCR platforms, while its Center for Esoteric Testing in Burlington, North Carolina, performs the largest volume of specialty testing in the network. LabCorp's clients include physicians, state and federal government, managed care organizations, hospitals, clinics, pharmaceutical and Fortune 1000 companies, and other clinical laboratories.

#### For LabCorp Investors

Each of the above forward-looking statements is subject to change based on various important factors, including without limitation, competitive actions in the marketplace and adverse actions of governmental and other third-party payors. Actual results could differ materially from those suggested by these forward-looking statements. Further information on potential factors that could affect LabCorp's financial results is included in the Company's Form 10-K for the year ended December 31, 2001 and subsequent SEC filings.

#### For DIANON Investors

This press release may contain "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934. When used in this press release, the words "may," "could," "should," "would," "believe," "anticipate," "estimate," "expect," "intend," "plan" and similar expressions or statements regarding future periods are intended to identify forward-looking statements. All forward-looking statements are inherently uncertain as they are based on various expectations and assumptions concerning future events, which by their nature involve substantial risks and uncertainties beyond DIANON Systems, Inc.'s control. DIANON Systems, Inc. undertakes no obligation to update or revise any forward-looking statement for events or circumstances after the date on which such statement is made. DIANON Systems, Inc. cannot assess the impact of or the extent to which any single factor or risk, or combination of them, may cause actual results to differ materially from those contained in any forward-looking statements. For a more complete discussion of risk factors, please see DIANON Systems, Inc.'s filings with the Securities and Exchange Commission, including its Annual Report on Form 10K for the year ended December 31, 2001.

DIANON will file a proxy statement and DIANON and LabCorp will file other relevant documents with the SEC concerning the proposed merger of a wholly-owned subsidiary of LabCorp with and into DIANON. INVESTORS ARE URGED TO READ THE PROXY STATEMENT WHEN IT BECOMES AVAILABLE AND ANY OTHER RELEVANT DOCUMENTS FILED WITH THE SEC BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION. You will be able to obtain the documents free

of charge at the website maintained by the SEC at [www.sec.gov](http://www.sec.gov). In addition, you may obtain documents filed with the SEC by LabCorp free of charge by requesting them in writing from LabCorp at 430 South Spring Street, 1st Floor, Burlington, North Carolina 27215, Attention: Investor Relations, or by telephone at (336) 229-1127. You may obtain documents filed with the SEC by DIANON free of charge by requesting them in writing from DIANON, 200 Watson Boulevard, Stratford, Connecticut 06615, Attention: Secretary, or by telephone at (203) 381-4055.

LabCorp and DIANON, and their respective directors and executive officers, may be deemed to be participants in the solicitation of proxies from the stockholders of DIANON in connection with the merger. Information about the directors and executive officers of LabCorp and their ownership of LabCorp shares is set forth in the proxy statement for LabCorp's 2001 annual meeting of shareholders filed with the SEC on April 15, 2002. Information about the directors and executive officers of DIANON and their ownership of DIANON stock is set forth in the proxy statement for DIANON's 2002 annual meeting of stockholders filed with the SEC on July 1, 2002. Investors may obtain additional information regarding the interests of such participants by reading the proxy statement when it becomes available.
