LABCORP LAUNCHES NEW COVID-19 CLINICAL TRIAL SITE TO CONNECT PATIENTS WITH U.S. RESEARCH TRIALS

Streamlining recruitment into studies to speed research

BURLINGTON, N.C., June 1, 2020 — LabCorp (NYSE: LH), a leading global life sciences company that is deeply integrated in guiding patient care, today announced that Covance, its drug development business, has created COVID-19 Clinical Trial Connect in the U.S., a site designed to help people access information about how to participate in COVID-19 research.

“Through COVID-19 Clinical Trial Connect, our goal is to link people interested in these clinical trials with sponsors so that together we may find solutions for this global pandemic,” said Michael Brooks, president, Clinical Development and Commercialization Solutions, Covance. “There are currently hundreds of COVID-19-related clinical trials underway or planned to begin in the near future, and we recognize that many patients may not know how to go about finding information about a clinical trial. With our COVID-19 Clinical Trial Connect, we’re helping bridge the gap. We are thrilled to have the capability to directly engage with patients who would not otherwise be aware of ongoing trials and give them the opportunity to consider participation, especially at this time.”

The COVID-19 clinical trial opportunities are diverse, with sponsors recruiting patients who currently have COVID-19, those who may be now recovered, and those who may have been exposed to coronavirus. Through the Covance COVID-19 Clinical Trial Connect site, prospective patients would be notified of studies run by Covance on behalf of a biopharmaceutical company, as well as those listed in clinicaltrials.gov.

“People who choose to participate in a clinical trial are true medical heroes,” Brooks said. “It is only through well-designed clinical research that we will find effective treatments and vaccines against COVID-19.”

People visiting the Covance COVID-19 Clinical Trial Connect will be invited to opt-in to register their details. This information will be used to connect people with suitable clinical studies in their area. If a study is unavailable in their area at this time, prospective participants will have the option to be contacted when one becomes available.

Cautionary Statement Regarding Forward-Looking Statements

This press release contains forward-looking statements, including but not limited to statements with respect to the Company's future operations, expansion of offerings and capabilities, and opportunities for future growth. Each of the forward-looking statements is subject to change based on various important factors, many of which are beyond the Company's control, including without limitation, the impact of the COVID-19 pandemic on our business and financial condition, as well as on general economic, business, and market conditions, competitive actions and other unforeseen changes and general uncertainties in the marketplace, changes in government regulations, including healthcare reform, customer purchasing decisions, including changes in payer regulations or policies, other adverse actions of governmental and third-party payers, changes in testing guidelines or recommendations, the effect of public opinion on the Company's reputation, adverse results in material litigation matters, failure to maintain or develop customer relationships, our ability to develop or acquire new products and adapt to technological changes, failure in information technology, systems or data security, and employee relations. These factors, in some cases, have affected and in the future (together with other factors) could affect the Company's ability to implement the Company's business strategy and actual results could differ materially from those suggested by these forward-looking statements. As a result, readers are cautioned not to place undue reliance on any of our forward-looking statements. The Company has no obligation to provide any updates to these forward-looking statements even if its expectations change. All forward-looking statements are expressly qualified in their entirety by this cautionary statement. Further information on potential factors, risks and uncertainties that could affect operating and financial results is included in the Company's most recent Annual Report on Form 10-K and subsequent Forms 10-Q, including in each case under the heading RISK FACTORS, and in the Company's other filings with the SEC.
