## LABCORP ENTERS INTO STRATEGIC RELATIONSHIP WITH PRISMA HEALTH

Arrangement Expands Access to Labcorp's Comprehensive Portfolio of Services for Prisma Health
Patients and Physicians in South Carolina

**BURLINGTON, N.C., March 9, 2022** — <u>Labcorp</u> (NYSE: LH), a leading global life sciences company, is entering into a strategic laboratory relationship with Prisma Health, a nonprofit and the largest health system in South Carolina.

Through this new relationship, Labcorp will acquire select assets of Prisma Health's outreach laboratory business. In addition, Labcorp and Prisma Health have entered into a technical support agreement to apply Labcorp's knowledge and expertise in Prisma Health's hospital laboratories. Collectively, the strategic collaboration enhances Labcorp's diagnostic footprint and capabilities in the Carolinas and allows Prisma Health's patients and providers the benefit of enhanced care across multiple clinical areas.

"Prisma Health is an established leader in providing health care and diagnostic services to South Carolina residents, and its dedication to its patients closely aligns with Labcorp's mission to improve health and improve lives," said Traci Butler, senior vice president of Labcorp Diagnostics' Atlantic Division. "This relationship builds on Labcorp's strong track record of providing the critical information that patients and providers need to make the best possible health decisions. It also underscores our commitment and dedication to the people who call the Carolinas home."

The strategic relationship will expand Prisma Health patients' access to laboratory testing throughout South Carolina and offer individualized, dedicated support to physician practices. It follows other strategic collaborations with local and regional health systems that have enabled Labcorp to enhance service for patients and providers.

"Labcorp brings the scale and expertise of its internationally recognized laboratory services to help us achieve the next level of service and quality in this highly specialized area," said Clarence Sevillian, executive vice president and chief operating officer of Prisma Health. "We pride ourselves on providing the best possible experiences for our patients and providers. This relationship is another way we are building on our strong reputation of quality care and compassionate service, helping people in communities across South Carolina live their healthiest lives."

Once the transactions are complete, Prisma Health patients and clinicians will have access to a broad spectrum of services through Labcorp's extensive lab test menu, along with its national network of patient service centers for improved patient access and convenience. Labcorp will also offer expanded health plan coverage, additional access to rural markets and the potential for reduced out-of-pocket lab costs for patients. Additionally, Labcorp will collaborate with Prisma Health to provide same-day STAT testing in local communities.

The transactions are expected to close in the second half of 2022. Specific terms of the transactions were not disclosed.
