The Company expects to reimburse banks, brokers, and other persons for their reasonable, out-of-pocket expenses in handling proxy materials for beneficial owners.

Only holders of record of common stock of the Company (the "Common Stock") at the close of business on March 31, 2004 (the "Record Date") will be entitled to notice of, and to vote at, the Annual Meeting. At the close

Board of Directors and its Committees

The Board of Directors has an Audit Committee, a Compensation Committee, an Ethics and Quality Assurance Committee, and a Nominating and Corporate Governance Committee, the Charters for which are attached hereto as Annexes I, II, III, and IV, respectively.

The Audit Committee, consisting of Ms. Lane, Mr. Mittelstaedt, and Dr. Powell, is directly responsible for the selection, appointment, compensation and oversight of the work of any registered public accounting firm employed by the Company and assists in Board oversight of the integrity of the financial statements of the Company; the compliance by the Company with legal and regulatory requirements; the qualifications and independence of the Company’s independent auditors and the oversight of the Company’s internal audit functions, internal controls, and independent auditors.

The Compensation Committee, consisting of Mr. Bélingard, Dr. Wallace, and Dr. Weikel, reviews and recommends to the full Board for its approval compensation and benefit policies and objectives; determines whether officers, directors and employees are compensated according to these policies and objectives; oversees the Company’s incentive compensation and stock plans; and carries out the board’s responsibilities relating to the compensation of executives and directors.

The Ethics and Quality Assurance Committee, consisting of Dr. Powell, Mr. Bélingard, and Dr. Weikel, is responsible for ensuring that the Company adopts and implements procedures that require the Company’s employees to act in accordance with high ethical standards and to deliver high quality services.

The Nominating and Corporate Governance Committee, consisting of Mr. Mittelstaedt, Ms. Lane, and Dr. Wallace, is responsible for assisting the Board by identifying individuals qualified to become Board members and by recommending to the Board the director nominees for the next annual meeting of stockholders; for developing and recommending to the Board a set of corporate governance principles applicable to the Company; for leading the Board in its annual review of the Board’s performance; and for recommending to the Board director nominees for each Board committee.

During 2003, the Board of Directors held nine meetings, each in accordance with the Company's By-Laws and applicable Delaware corporation law and acted four times by unanimous written consent. The Compensation Committee held four meetings and acted three times by unanimous written consent; the Audit Committee held eight meetings; the Nominating and Corporate Governance Committee held seven meeting and acted once by unanimous written consent; and the Ethics and Quality Assurance Committee held three meetings. During 2003, none of the directors attended fewer than 75% of the total meetings of the Board of Directors and the committees of which he or she was a member.

On October 16, 2002, the Board of Directors began holding executive sessions without Company management or non-independent director participation. These sessions are generally held at each regularly scheduled meeting of the Board of Directors and at each special meeting upon the request of a majority of the independent directors attending the special meeting. The director presiding over each executive session is selected on a rotating basis, beginning with the Chair of the Audit Committee, followed by the Chairs of the Compensation Committee, the Ethics and Quality Assurance Committee, and the Nominating and Corporate Governance Committee. In 2003, the Board held six executive sessions.

Members of the Board of Directors usually attend the annual meeting of stockholders. All six directors attended the 2003 annual meeting.

Corporate Governance Guidelines and Code of Business Conduct and Ethics

In October 2002, the Board adopted an updated set of Corporate Governance Guidelines (the "Guidelines"). The Guidelines address a number of topics, including director independence, Board and Committee self-assessment, retirement, evaluation of the Chief Executive Officer, composition of the Board and succession planning. The Nominating and Corporate Governance Committee reviews the Guidelines on a regular basis and any proposed additions or amendments to the Guidelines are submitted to the Board for its consideration.

In December 2003, the Board adopted the Company's updated Code of Business Conduct and Ethics (the "Code"). The Code is a code of business conduct and ethics applicable to all directors, officers and employees of the Company, including its Chief Executive Officer and its Chief Financial Officer, Controller and other senior financial officers. The Code sets forth Company policies and expectations on a number of topics, including but not limited to, conflicts of interest, confidentiality, compliance with laws (including insider trading laws), preservation and use of Company assets, and business ethics. The Code also sets forth procedures for communicating and handling any potential conflict of interest (or the appearance of any conflict of interest) involving directors or executive officers, and for the confidential communication and handling of issues regarding accounting, internal controls and auditing matters. The Company regularly reviews the Code and proposed additions or amendments to the Code are considered and subject to approval by the Board.

In order to provide stockholders with greater knowledge regarding the Board's processes, the Guidelines and the Code adopted by the Board of Directors are posted on the Company's website at www.labcorp.com. In addition, any waivers or amendments to the Code will be posted on the Company's website.

The Company has carefully reviewed its Guidelines and Code and believes that they comply with the provisions of the Sarbanes-Oxley Act of 2002, the rules of the Commission, and the NYSE's new corporate governance listing standards regarding corporate governance policies and processes.

Board Evaluation

Each year, the Board conducts a self-assessment of its performance and effectiveness. This process commences with each director completing a Board Evaluation Questionnaire. This questionnaire was developed by the Nominating and Corporate Governance Committee and provides for a range of grades and trend indicators to be completed by each director, as well as space for written comments.

The collective ratings and comments of the directors are compiled and presented by the Chair of the Nominating and Corporate Governance Committee to the full Board for discussion, for the assessment of progress in the areas targeted for improvement a year earlier, and for the development of recommendations to enhance the Board's effectiveness over the next year.

In addition, each Board Committee conducted a self-evaluation of its performance during fiscal 2003, with performance criteria for each Committee developed on the basis of its purposes and mission, as set forth in its charter.

Identification and Evaluation Of Individual Director Candidates

The Nominating and Corporate Governance Committee proposes a slate of directors for election by the Company's stockholders at each Annual Meeting and appoints candidates to fill vacancies on the Board.

When evaluating prospective candidates for director, including those nominated by stockholders, the Nominating and Corporate Governance Committee conducts individual evaluations against the criteria enumerated in Company's Corporate Governance Guidelines. These criteria include, but are not limited to personal and professional integrity; interest, capacity and willingness to serve the long-term interests of the Company's stockholders; ability and willingness to devote the required amount of time to the Company's affairs, including attendance at Board and Committee meetings; exceptional ability and judgment; and freedom from personal and professional relationships that would adversely affect their ability to serve the best interests of the Company and its stockholders. The goal is to ensure that the Board composition reflects a balance of skills, experiences, diversity and expertise in the context of the Company's business needs. Director candidates, other than sitting directors, may be interviewed by the Chairman of the Nominating and Corporate Governance Committee, other directors, the Chief Executive Officer and/or other members of senior management. The results of those interviews, as well as any other materials received by the Nominating and Corporate Governance Committee that the Committee deems appropriate, are considered by the Committee in making its recommendation to the Board.

The Company paid a professional search firm to identify and assist the Nominating and Corporate Governance Committee in identifying, evaluating and conducting due diligence on potential nominees for board vacancies. Such firm identified, recommended and presented to the Nominating and Corporate Governance Committee two nominees, M. Keith Weikel, Ph.D. and Craig M. Watson, for election at the Annual Meeting. The Nominating and Corporate Governance Committee is authorized to engage one or more firms, at the Company's expense, to provide similar services in the future.

The Board recently assessed the characteristics and performance of the individual nominees standing for election and re-election to the Board at the 2004 Annual Meeting against these criteria, and, to the extent applicable, considered the impact of any change in the principal occupations of all directors during the last year. Upon completion of the individual director evaluation process, the Corporate Governance and Nominating Committee reported to the full Board its conclusions and recommendations for nominations to the Board, the results of which are reflected in this proxy statement.

In addition to finding prospective candidates for director through a professional search firm, the Nominating and Corporate Governance Committee will consider properly submitted nominations for Board candidates made by stockholders. A stockholder may recommend a person for nomination to the Board at the 2005 annual meeting of stockholders by giving notice thereof and providing certain information set forth in the Company's By-Laws, in writing, to the Corporate Secretary of the Company at 358 South Main Street, Burlington, NC 27215. Such nominations must be received no earlier than January 12, 2005 and no later than March 11, 2005. The By-laws may be obtained free of charge by writing to the Company's Corporate Secretary.

Communications with the Board

Stockholders may communicate with the Board by submitting written communications to Board of Directors, c/o Corporate Secretary, Laboratory Corporation of America Holdings, 358 South Main Street, Burlington, North Carolina 27215. Documents will be submitted to the Board in accordance with the Board's instructions.

Compensation of Directors

An outside compensation and benefits firm was selected in 2002 to review the Company's non-employee director compensation plan, which had not been updated for over six years. On October 16, 2002, a new director compensation plan was adopted effective January 1, 2003 to compensate directors for their additional responsibilities under the NYSE regulations and the Sarbanes-Oxley Act of 2002 and to move toward better pay alignment with the Company's peer group. This compensation plan is monitored annually to ensure alignment with best practices and long-term shareholder interests.

Under the new plan, directors who did not receive compensation as officers or employees of the Company received in 2003 an annual retainer of \$40,000, payable in monthly installments, fifty percent (50%) of such annual retainer payable in cash and fifty percent (50%) payable in common stock pursuant to the 1995 Stock Plan for Non-Employee Directors (the "Director Plan"), a fee of \$1,500 for each meeting of the Board of Directors or of any Committee thereof that they attended, and reimbursement of reasonable expenses incurred for attending any meeting. In 2003, Mr. Bélingard, Ms. Lane, Mr. Mittelstaedt, Dr. Powell, and Dr. Wallace each earned 660 shares of Common Stock under the Director Plan and Dr. Weikel earned 284 shares of Common Stock under the Director Plan. An annual Committee Chair retainer of \$10,000 in cash was paid in equal monthly installments throughout the year to the Chairperson of each of the Board of Directors' Committees. Each non-employee director received a restricted stock award in 2003 with a Fair Market Value of \$50,000; the restricted stock awards vest in equal one-third increments over three years, beginning on the first anniversary of the grant date. As set forth in the 2000 Stock Incentive Plan, on the date of the Annual Meeting of Stockholders, non-employee directors were also automatically granted annual option awards with respect to shares having a Fair Market Value equal to \$77,000 at the time of grant (\$50,000 present value). The annual option awards vest in equal one-third increments over three years, beginning on the first anniversary of the grant date, and if unexercised, expire 10 years after the date of grant, subject to their earlier termination.

In December 2003, upon the recommendation of the Compensation Committee following a review of market data and other considerations, the Board approved an increase to \$2,000 for each meeting of the Board of Directors or of any Committee thereof that they attend, effective January 1, 2004. No other changes were made to the existing director's compensation plan.

- (1) The Retirement Plan, as supplemented by the Pension Equalization Plan, is a defined benefit pension plan designed, in conjunction with the Company's Pension Equalization Plan, to provide an employee having 25 years of credited service with an annuity equal to 52% of final average compensation less 50% of estimated individual Social Security benefits. The 25-year service requirement is effective January 1, 2004.
- (2) Highest consecutive five-year average base compensation during final ten years. No bonuses are considered. Compensation considered for this five-year average is reflected in the Summary Compensation Table under the heading "Salary." Effective January 1, 2004, there is no longer a limit on the five-year average base compensation used to determine benefits in the Pension Equalization Plan.
- (3) Under the plans, the normal form of benefit for an unmarried participant is a life annuity with a guaranteed minimum payment for ten years. For a married participant, the normal form is a 50% joint and survivor annuity, which is actuarially equivalent to the normal form for an unmarried participant. The above tables are determined with regard to a life only form of payment; thus, payment using a ten-year guarantee or a 50% joint and survivor feature would produce a lower annual benefit.

Credited service is defined generally as all periods of employment with the Company, a participating subsidiary or with National Health Laboratories Holdings Inc. or its subsidiaries prior to 1992, or RBL or an affiliate, after attainment of age 21 and completion of one year of service (age 25 and completion of one year of service if hired before January 1, 1985). Effective January 1, 2004, the one year of service requirement and the minimum age requirement are waived under the Pension Equalization Plan. Final average compensation is defined as average annual base salary during the five consecutive calendar years in which base salary was highest

out of the last ten calendar years prior to normal retirement age or earlier termination. The Employee Retirement Income Security Act of 1974, as amended, places certain maximum limitations upon the annual benefit payable under all qualified plans of an employer to any one individual. The limitation solely with respect to defined benefit pension plans was \$160,000 for 2003 and will be subject to cost of living adjustments for future years. In addition, the Tax Reform Act of 1986 limits the amount of compensation that can be considered in determining the level of benefits under qualified plans. The applicable limit for 2003 was \$200,000. The Company believes that, with respect to certain employees, annual retirement benefits computed in accordance with the Retirement Plan's benefit formula may be greater than those which would be provided with regard to such qualified plan limitation. The Company's non-qualified, unfunded, Pension Equalization Plan is designed to provide for the payment of the difference, if any, between the amount of such maximum limitation and the annual benefit that would be payable under the Retirement Plans but for such limitation.

As of January 1, 2004, credited years of service under the Pension Equalization Plan for the following individuals are: Mr. Mac Mahon—7.0 years, Mr. Elingburg—23.7 years, Mr. Smith—22.0 years, Dr. Lai-Goldman—13.5 years, and Mr. Novak—6.9 years.

Compensation Plans and Arrangement

On April 17, 1996, the Board of Directors approved the Master Senior Executive Severance Plan (the "Severance Plan"), which provides severance payments to certain key employees. The Severance Plan provides for severance payments of three times annual salary and targeted bonus then in effect for a change in control (as defined in the Severance Plan) and two times annual salary and targeted bonus then in effect for all other qualifying terminations for the President and Chief Executive Officer and the Executive Vice Presidents of the Company. The Severance Plan also provides severance payments of one times annual salary and targeted bonus then in effect for Senior Vice Presidents upon the occurrence of a qualifying termination. Qualifying termination is generally defined as involuntary termination without cause or voluntary termination with Good Reason, as defined. "Good Reason" is defined as a reduction in base salary or targeted bonus as a percentage of salary, relocation to an office location more than 75 miles from the employee's current office without consent of the employee, or a material reduction in job responsibilities or transfer to another job without the consent of the employee. Good Reason does not include a reduction in base salary or targeted bonus where such reduction is pursuant to a Company-wide reduction of base salaries and/or targeted bonuses. In addition, the Severance Plan may not be amended or terminated within 36 months following a change in control, as defined.

Compensation Committee Report on Executive Compensation

The Compensation Committee of the Board of Directors (for the purposes of this section, the "Committee"), comprised entirely of independent directors, reviews and recommends to the full Board for its approval compensation and benefit policies and objectives; determines whether officers, directors and employees are compensated according to these policies and objectives; and carries out the board's responsibilities relating to the compensation of executives and directors as described above under "Item One: Election of Directors." The charter of the Compensation Committee was last amended on December 10, 2003, and is attached hereto as Annex II.

During 2003, the Committee held four meetings to review and evaluate executive and director compensation and benefit programs, including information provided to the Company by independent compensation and benefit consultants.

Executive Officer Compensation Policies. The Committee's executive compensation policies are designed to (a) attract and retain the best individuals critical to the success of the Company, (b) motivate and reward such individuals based on corporate, business unit and individual performance, and (c) align executives' and stockholders' interests through equity-based incentives.

Compensation for executives is based on the following principles: variable compensation should comprise a significant part of an executive's compensation, with the percentage at-risk highest for the executive officers; both compensation opportunities provided to executive officers and the realizable values of those opportunities should significantly vary with performance achievements; an emphasis on stock-based compensation aligns the long-term interests of executive officers and stockholders; compensation opportunities for executive officers must be evaluated against those offered by companies similar in size and scope of operations; and differences in executive compensation within the Company should reflect varying levels of responsibility and/or performance.

A key reference in determining the overall levels of executive officer compensation is an assessment of pay practices within a group of public companies in the health care services industries that engage in diagnostics and genomic research that are comparable in size and scope to the Company (the "peer group"). Companies in the peer group were selected by the Committee based on recommendations from the Committee's independent compensation and benefit consultants. Some of these companies are included in the peer group used for stock price comparisons (see "Common Stock Performance" below).

2003 Executive Officer Compensation. There are three components to the Company's executive compensation program: base salary, annual incentive compensation, and long-term incentive compensation. The more senior the position, the greater the portion of total compensation that varies with performance results.

Base salaries are set by the Committee and are designed to be competitive with the peer group companies described above. Generally, the Committee has targeted salary levels of the executive officers at the median of peer group practices, with any variations reflecting the individual's job experience and responsibility. Annual changes in base salaries are based on the peer group's practices, the Company's performance, the individual's performance, and increases in cost of living indexes. For 2003, the average salary increase for executive officers was 7 percent.

Under the Company's Management Incentive Bonus Plan, originally adopted by the stockholders in 1995, annual incentive compensation for executive officers is paid in the form of a cash bonus. Earned bonus amounts generally are based on the attainment of specific performance goals, which were approved by the Chair of the Committee at the beginning of 2003. The primary measures used for executive officer bonuses in 2003 were earnings before interest, taxes, depreciation and amortization ("EBITDA"), days sales outstanding, revenue growth, and certain other specific measures. Each executive officer has a target bonus expressed as a percentage of salary. The Committee generally sets bonus opportunities so that total cash compensation for Executive Officers will approximate the peer group's 75th percentile if performance results warrant such an outcome.

The Company's annual performance results in 2003 generally met the goals set by the Committee for the year and resulted in bonuses for executive officers that were generally at the target amount (see "Summary Compensation Table" for amounts paid to certain executive officers under the plan). These bonuses were less than the bonuses earned by the executive officers for 2002.

Long-term incentive compensation is provided through the granting of stock options and restricted stock under the Company's Stock Option Plans. The Committee believes that grants of stock options and restricted stock align stockholder and executive officer interests and serve as an effective retention tool. Generally, the Committee approves stock option grants at the beginning of the year with the size of grants determined by each executive officer's level of responsibility after comparison to the equity grant practices of the peer group. Competitive grant practices are evaluated in terms of both annualized expected value and percentage of common shares outstanding, and the size of grants to Company executive officers reflect the Committee's evaluation of the Company's performance as compared to the peer group. As provided in the Company's Stock Option Plans, stock options are granted with an exercise price equal to the Fair Market Value (as defined in the Company's Stock Option Plans) per share on the date of grant.

For 2003, the Committee kept its one time grant of restricted stock awarded in 2002 that will represent the entire restricted stock opportunity for executive officers for the three-year period from 2002 through 2004,

instead of making annual grants. Moving from an annual to a three-year plan is intended to remove the issues related to the volatility of the Company's share price in determining the size of the grants. Grants of restricted stock will vest on the sixth anniversary of grant, although vesting of the restricted shares granted in 2002 may be accelerated if certain predefined profitability targets are achieved as of December 31, 2004. As a result of this plan change, no restricted awards were made to the executive officers during 2003.

The mix between stock options and restricted stock is such that a majority of the expected value is delivered through the granting of stock options. No stock option or restricted stock awards are made in the absence of satisfactory performance, which is evaluated by the Committee based on the executive's individual contribution to the long-term health and growth of the Company.

2003 Chief Executive Officer Compensation. The Committee reviewed Mr. Mac Mahon's base salary, annual incentive and long-term incentive compensation in the same manner as described above for other Executive Officers. The Committee increased Mr. Mac Mahon's base salary from \$825,000 in 2002 to \$849,750 in 2003.

The Committee believes that Mr. Mac Mahon's leadership and individual performance have significantly contributed to the achievement of remarkable growth in earnings and stockholder value for the Company during his tenure as CEO. Mr. Mac Mahon's annual target bonus opportunity during 2003 was 150 percent of salary, the same as in 2002. Based on the Company's performance achievements during 2003, Mr. Mac Mahon received an annual bonus payment that was approximately 153% percent of his 2003 salary. This represented a decrease of approximately 11% percent from his 2002 earned bonus amount and resulted in total cash compensation for 2003 that was approximately 6% less than his total cash compensation for 2002. As for the other Executive Officers, this result reflected that while the Company generally met the goals for 2003, performance results more significantly exceeded the Committee's goals in 2002.

The majority of Mr. Mac Mahon's compensation opportunity for 2003 was delivered through equity-based vehicles linked directly to the interests of stockholders. In 2003, Mr. Mac Mahon received an annual grant of 288,400 stock options, the same number of options awarded in 2002, and no restricted stock award. The Committee determined the size of these grants after reviewing competitive equity grants to peer group CEOs and they reflect the Committee's assessment that the performance of both the Company and Mr. Mac Mahon continue to be outstanding. The stock options will vest in equal one-third increments over a three-year period beginning on the first anniversary of the grant date and if unexercised, will expire ten years from the date of grant, subject to their earlier termination.

Limit on Deductibility of Compensation. Section 162(m) of the Internal Revenue Code limits the corporate federal income tax deduction for certain "non-performance based" compensation paid to the chief executive officer and each of the four highest paid employees of public companies to \$1 million per year. The Committee has carefully considered the Corporation's executive compensation program in light of the applicable tax rules. Accordingly, the Company's 2000 Stock Incentive Plan has been structured to meet the requirements of Section 162(m), and stockholders last approved the Plan in 2002. However, the Committee believes that tax-deductibility is but one factor to be considered in fashioning an appropriate compensation package for executives. As a result, the Committee reserves and will exercise its discretion in this area so as to serve the best interests of the Company and its stockholders.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, (the "Exchange Act") requires the Company's Executive Officers, directors and persons who own more than 10% of the Company's equity securities to file reports on ownership and changes in ownership with the Commission and the securities exchanges on which its equity securities are registered. Additionally, Commission regulations require that the Company identify in its proxy statements any individuals for whom one of the referenced reports was not filed on a timely basis during the most recent fiscal year or prior fiscal years. To the Company's knowledge, based solely on a review of reports furnished to it, all Section 16(a) filing requirements applicable to its Executive Officers, directors and more than 10% beneficial owners were complied with, with the following exception: Wesley R. Elingburg, Myla P. Lai-Goldman, Thomas P. Mac Mahon, Richard L. Novak, Bradford T. Smith, and Stevan R. Stark submitted late the Form 4 reporting the March 20, 2003 stock withholding to satisfy tax and withholding obligations upon the vesting of restricted stock filed on their behalf by the Company with the Commission on March 25, 2003 because of an inadvertent oversight by the Company.

ITEM TWO: AMENDMENT TO THE 1997 EMPLOYEE STOCK PURCHASE PLAN

The Board of Directors has adopted and recommends that the stockholders approve amendments to the 1997 Employee Stock Purchase Plan (the "Stock Purchase Plan") to increase the number of authorized shares from 3,000,000 to 4,500,000 and to extend the termination date from December 31, 2006 to December 31, 2008. The shareholders originally approved the Stock Purchase Plan at the November 20, 1996 annual meeting of stockholders and subsequently amended it authorizing additional shares at the June 16, 1999 annual meeting of stockholders. The Stock Purchase Plan is designed to give all eligible employees an increased personal interest in the success and progress of the Company by encouraging their ownership of Common Stock of the Company.

The maximum number of shares of the Company's Common Stock subject to the Stock Purchase Plan, prior to amendment, was 3,000,000 shares, as adjusted for any stock dividends, stock splits or other stock changes. As of March 31, 2004, approximately 2,764,925 shares had been issued under the Stock Purchase Plan. On April 2, 2004, the Board approved an amendment to the Stock Purchase Plan, subject to approval of the shareholders, to increase by 1.5 million the number of shares of Common Stock of the Company authorized for issuance under the Stock Purchase Plan. The Board adopted this amendment to ensure that the Company can continue to allow participation in the Stock Purchase Plan by eligible employees as only 235,075 shares are currently available for issuance under the plan. The text of the amendment is set forth as Annex V to this Proxy Statement.

The Stock Purchase Plan provides for the granting of options to all eligible employees of the Company and its subsidiaries, both officers and non-officers, entitling them to purchase shares of the Common Stock of the Company at a discounted price. All employees of the Company and its subsidiaries will be eligible to participate in the Stock Purchase Plan, except part-time and temporary employees and employees owning 5% or more of the total voting power or value of all classes of stock of the Company. Under the Stock Purchase Plan, only those directors and nominees for director who are full-time employees of the Company or a subsidiary are eligible to participate.

For each six-month period (an "Offering Period") commencing January 1 or July 1 (the "Offering Date") during the term of the Stock Purchase Plan, each eligible employee receives an option to purchase up to the largest whole number of shares obtained by dividing (i) between one and ten percent (as specified by the employee) of such employee's compensation for the Offering Period by (ii) the Option Price (as defined below). At the end of an Offering Period, on either June 30 or December 31 (the "Exercise Date"), the amount deducted from each eligible employee's compensation during the Offering Period is used to purchase shares of the Company's Common Stock for the benefit of that employee. The price at which the shares will be purchased (the "Option Price") will be 85% of the fair market value of a share of Common Stock on the Offering Date or the Exercise Date, whichever is lower. Generally, fair market value will be the average of the high and low sales prices of the Common Stock on that date.

Prior to the Exercise Date, the amounts deducted from an employee's salary may be used by the Company for general corporate purposes but will be recorded as being in separate accounts ("Purchase Accounts") for each employee. Other than terminating their participation, employees may not change the level of their participation with respect to an Offering Period during such Offering Period. The aggregate fair market value of all shares of the Company which an employee has an option to purchase under the Stock Purchase Plan, may not exceed \$25,000 in any calendar year.

The Stock Purchase Plan provides that if an employee's employment terminates for any reason other than death, then such employee's options terminate immediately and all funds deducted from the employee's compensation during the current Offering Period will be paid to the employee. Options are not transferable except by will or by the laws of descent and distribution, and will be exercisable during the employee's lifetime only by such employee.

The Stock Purchase Plan provides that options will become immediately exercisable in full upon the occurrence of certain events involving a change in control of the Company. Such events include: the adoption of a plan of merger or similar transaction involving the Company in which the Company's stockholders would receive less than 50% of the voting stock of the surviving corporation; the approval by the Board of Directors of the sale or transfer by the Company of a majority of the stock of a significant subsidiary of the Company or substantially all of the Company's or such a subsidiary's assets; certain acquisitions of more than 20% of the Common Stock by any person or group other than a person or group who beneficially owned, as of the Offering Date, more than 5% of the Common Stock unless prior approval of the Board of Directors is received; certain significant changes in the membership of the Board of Directors; or any other transaction that would constitute a change in control required to be reported by the Company in a proxy statement. In addition, upon the approval of the dissolution or liquidation of the Company, all options shall become exercisable in full. Upon the dissolution or liquidation of the Company, or upon the consummation of a merger or consolidation in which the Company's stockholders do not receive at least 50% of the voting stock of the resulting corporation, all options not exercised shall terminate, but the participating employees will have the option of purchasing the shares or being paid the amount designated in their Purchase Accounts prior to such occurrence.

The date for the initial grant of options under the Stock Purchase Plan was January 1, 1997. The Stock Purchase Plan will terminate December 31, 2006, unless the requested extension to December 31, 2008 is approved by the shareholders at this annual meeting. The Stock Purchase Plan is administered by the Compensation Committee of the Board of Directors of the Company. The Committee is empowered to prescribe rules and regulations for such administration and to decide questions with respect to the interpretation or application of the Plan. In addition, the Committee will have the authority to alter, amend, suspend or discontinue the Stock Purchase Plan at any time without notice, except that no such action may adversely affect the rights of any participating employee. In addition, the Committee may not increase the number of shares of Common Stock issuable under the Stock Purchase Plan, change the formula determining the price at which options may be exercised or increase the maximum number of shares an eligible employee may purchase under the Stock Purchase Plan. Furthermore, the Stock Purchase Plan is designed to meet the requirements of Rule 16b-3 under the Exchange Act with respect to participation by insiders of the Company, and, in accordance therewith, certain amendments may require the approval of the Company's stockholders.

Options will be granted on the condition that a registration statement under the Securities Act of 1933, as amended (the "Securities Act"), with respect to the Common Stock to be issued subject to such option has become effective and a copy of the prospectus has been delivered to each participant.

Options under the Stock Purchase Plan will be statutory stock options of the kind recognized by Section 423 of the Internal Revenue Code of 1986, as amended (the "Code"). For federal income tax purposes, neither the grant nor the exercise of the options will be a taxable event to the participants. The disposition, however, of the shares acquired through the exercise of the options will be a taxable event. The tax consequences of such a disposition will depend upon the respective holding periods of the options and options shares. The statutory holding period for the Stock Purchase Plan is the later of two years after the Offering Date or one year from the date of transfer of the stock to the employee.

If a disposition of the shares is made after the end of the holding period, a portion of the gain, if any, will be taxed as ordinary income, which portion will be determined by subtracting the option price from the lesser of (a) the fair market value of the shares on the date the option was granted or (b) the fair market value of the shares on the disposition date. The remaining portion of the gain, if any, will be taxed as capital gain for federal income tax purposes. When the holding period described above is met, the Company is not allowed to deduct any amount for federal income tax purposes with respect to the issuance or exercise of the options or the sale of the underlying shares.

If a disposition of the shares is made before the end of the holding period, the amount of the gain which will be taxed as ordinary income will be determined by subtracting the option price from the fair market value of the shares on the date on which the option was exercised. The amount treated as ordinary income would be added to the employee's basis in calculating whether any capital gain or loss is to be recognized on the disposition. In the year of such early disposition, the Company will generally be entitled to a business deduction for federal income tax purposes in an amount equal to the ordinary income.

The Stock Purchase Plan is not qualified under the provisions of Section 401(a) of the Code and is not subject to any of the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The number of shares of the Company's Common Stock that will be purchased under the Stock Purchase Plan by its employees if it is amended cannot be estimated by the Company. The number of shares purchased by the participants of the Stock Purchase Plan for fiscal year 2003 was 273,956.

The Board of Directors of the Company recommends that the stockholders vote FOR approval and adoption of the ESPP Amendment.

ITEM THREE: RATIFICATION OF INDEPENDENT ACCOUNTANTS

Upon the recommendation of the Audit Committee, the Board of Directors has appointed PricewaterhouseCoopers LLP ("PricewaterhouseCoopers") to audit the accounts of the Company for the year ending December 31, 2004. For the year ended December 31, 2003, the Company's accounts were audited by PricewaterhouseCoopers.

PricewaterhouseCoopers's report on the financial statements of the Company for the year ended December 31, 2003 did not contain an adverse opinion or a disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope, or accounting principles.

To the knowledge of management and the Audit Committee, in connection with the audit of the Company's financial statements for the year ended December 31, 2003, there were no disagreements with

PricewaterhouseCoopers on any matters of accounting principles or practices, financial statement disclosure, or auditing scope and procedure which, if not resolved to the satisfaction of PricewaterhouseCoopers, would have caused PricewaterhouseCoopers to make reference to the matter in its reports.

Representatives of PricewaterhouseCoopers will be present at the Annual Meeting with the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

Stockholder ratification of the appointment of PricewaterhouseCoopers as the Company's independent accountants is not required by the Company's By-Laws or otherwise. The Board of Directors has elected to seek such ratification as a matter of good corporate practice. Should the stockholders fail to ratify the appointment of PricewaterhouseCoopers as the Company's independent accountants for the year ending December 31, 2004, the Board of Directors will consider whether to retain that firm for such year.

Principal Accountant Fees and Services

Aggregate fees for professional services rendered for the Company by PricewaterhouseCoopers as of or for the years ended December 31, 2003 and 2002, were:

	2003	2002
Audit	\$ 664,469	\$ 606,540
Audit Related	39,946	79,689
Tax	2,100	12,000
All Other	0	18,085
Total	\$ 706,515	\$ 716,314

The *Audit* fees for the years ended December 31, 2003 and 2002, respectively, were for professional services rendered (including reimbursement for out-of-pocket expenses) for the audits of the consolidated financial statements of the Company (\$585,000 and \$540,000) and the issuance of comfort letters, consents, income tax provision procedures, and assistance with review of documents filed with the SEC (\$72,084 and \$66,540).

The *Audit Related* fees for the year ended December 31, 2002 were primarily for assurance and related services related to due diligence related to mergers and acquisitions and accounting consultations in connection with acquisitions. For the year ended December 31, 2003, such fees were primarily for accounting consultations and for Section 404 attestation and advisory work.

Tax fees for the years ended December 31, 2003 and 2002, respectively, were for services related to tax compliance, tax planning and tax advice.

All Other fees for the year ended December 31, 2002 were for assistance with the development of investment policies.

No fees were paid for *Financial Information Systems Design and Implementation* for the years ended December 31, 2002 and 2003.

The Audit Committee has considered the other services rendered and believes that they are compatible with PricewaterhouseCoopers remaining independent.

The Board of Directors of the Company recommends that stockholders vote "FOR" the ratification of the appointment of PricewaterhouseCoopers as the Company's independent accountants for 2004.

AUDIT COMMITTEE'S REPORT

The Audit Committee of the Board of Directors, comprised entirely of non-management directors, held eight meetings during 2003. The Board of Directors considered the "independence" and "financial literacy" of each of the Audit Committee members, as set forth under the rules of the Listing Standards and the Securities and Exchange Commission ("Commission") and has concluded that its Audit Committee members satisfy the current requirements of the Listing Standards and the Commission. The Audit Committee of the Board of Directors further concluded that Wendy E. Lane has been identified as the "audit committee financial expert" as defined by Commission rules and has the "accounting or related financial management expertise" required by the Listing Standards.

The charter of the Audit Committee was last amended on December 9, 2003 and is attached hereto as Annex IV.

The Audit Committee met with the independent public accountants, management, and internal auditors to assure that all were carrying out their respective responsibilities. The Audit Committee reviewed the performance and fees of the independent public accountants prior to recommending their appointment, and met with them to discuss the scope and results of their audit work, including the adequacy of internal controls and the quality of financial reporting. The Audit Committee discussed with the independent public accountants their judgments regarding the quality and acceptability of the Company's accounting principles, the clarity of its disclosures and the degree of aggressiveness or conservatism of its accounting principles and underlying estimates, and other communications required by Statement of Accounting Standards No. 61, Communications with Audit Committees, as currently in effect. The Audit Committee discussed with and received a letter from the independent public accountants confirming their independence, as required by Independence Standards Board Standard No. 1. Both the independent public accountants and the internal auditors had full access to the Audit Committee, including regular meetings without management present. Additionally, the Audit Committee reviewed and discussed the audited financial statements with management and recommended to the Board of Directors that these financial statements be included in the Company's Form 10-K for filing with the Commission.

As part of its duties, the Audit Committee also considered whether the provision of services other than audit services during fiscal year 2003 by PricewaterhouseCoopers LLP, the Company's independent public accountants, is compatible with maintaining the accountant's independence and has determined that such services are compatible. See "Item Four: Ratification of Independent Accountants."

Management is responsible for the Company's financial reporting process, including its system of internal controls, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The Company's internal auditors are responsible to the Audit Committee for testing the integrity of the financial accounting and reporting control systems and such other matters as the Audit Committee and the Board determine. The Company's independent auditors are responsible for auditing those financial statements. The Audit Committee's responsibility is to monitor and review these processes. It is not the Audit Committee's responsibility to conduct auditing or accounting reviews or procedures. Therefore, the Audit Committee has relied, without independent verification, on (a) management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States and (b) the representations of the independent auditors appearing in the auditor's report on the Company's financial statements.

HOUSEHOLDING

As permitted by the Exchange Act, we have adopted a procedure approved by the Commission called "householding." Under this procedure, stockholders of record who have the same address and last name and do not participate in electronic delivery of proxy materials will receive only one copy of this proxy statement and annual report unless one or more of these stockholders provides notification of their desire to receive individual copies. This procedure will reduce our printing costs and postage fees. Stockholders who participate in householding will continue to receive separate proxy cards.

If you and other stockholders of record with whom you share an address currently receive multiple copies of annual reports and/or proxy statements, or if you hold stock in more than one account and in either case, you wish to receive only a single copy of the annual report or proxy statement for your household, please contact our transfer agent (in writing: American Stock Transfer and Trust Company, Shareholder Services, 6201 Fifteenth Avenue, Brooklyn, NY 11219; by telephone: 800-937-5449) with the names in which all accounts are registered.

If you participate in householding and wish to receive a separate copy of the 2003 annual report or this Proxy Statement, or if you wish to receive separate copies of future annual reports or proxy statements, please contact American Stock Transfer and Trust Company at the above address or phone number. We will deliver the requested documents to you promptly upon your request.

Beneficial stockholders can request information about householding from their banks, brokers or other holders of record.

You may also obtain an on-line version of the proxy statement at www.labcorp.com.

Each such request must set forth a good faith representation that, as of the Record Date (March 31, 2004), the person making the request was a beneficial owner of Common Stock entitled to vote.

In order to ensure timely delivery of such document(s) prior to the annual meeting, any request(s) should be submitted promptly to the Company.

OTHER BUSINESS

The Company knows of no other matters which may come before the Annual Meeting. However, if any such matters properly come before the Annual Meeting, the individuals named in the proxies will vote on such matters in accordance with their best judgment.
