LABCORP NAMED TO FORTUNE MAGAZINE'S 2019 LIST OF 'WORLD'S MOST ADMIRED COMPANIES,' MAKING THE ANNUAL LIST FOR THE SECOND CONSECUTIVE YEAR

BURLINGTON, N.C., Jan. 22, 2019 — LabCorp[®] (NYSE: LH), a leading global life sciences company, today announced that it has been named to *FORTUNE* magazine's 2019 List of World's Most Admired Companies, making the annual list for the second consecutive year. The annual survey, conducted by *FORTUNE* and Korn Ferry, a global organizational consulting firm, is given to top executives, directors, and financial analysts to identify the companies that enjoy the strongest reputations within their industries and across industries.

"It is an honor to be recognized by *FORTUNE* for the second year in a row based on criteria that speak to the enduring business strength of companies and place them among the world's most highly regarded," said David P. King, chairman and CEO of LabCorp. "This designation is especially meaningful as we celebrate LabCorp's 50th anniversary this year — marking our transformation from a hospital basement laboratory in 1969 to a leading global life sciences company today. I thank our nearly 60,000 colleagues around the world for their commitment to our mission of improving health and improving lives."

FORTUNE's World's Most Admired Companies list is the definitive report card on corporate reputations. Korn Ferry has collaborated with *FORTUNE* annually since 1997 to identify, select, and rank the World's Most Admired Companies and uncover the business practices that make these companies highly regarded among their peers. To compile the rankings, corporate reputation and performance are measured against nine key attributes: innovation, people management, use of corporate assets, social responsibility, quality of management, financial soundness, long-term investment, quality of products and services, and global competitiveness.

The World's Most Admired Companies list can be found on the FORTUNE website.

About LabCorp
